

# Student Feedback Report (2023-2024)

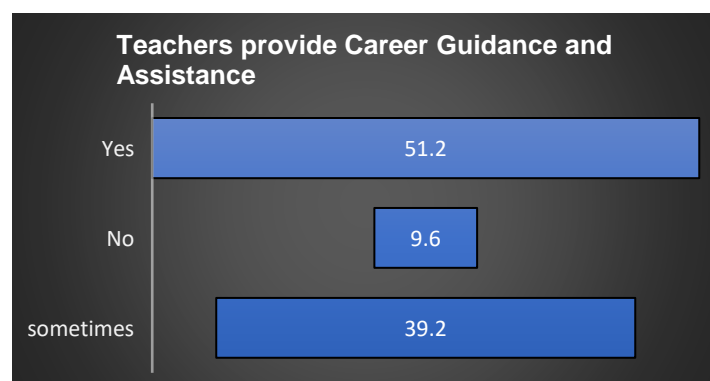

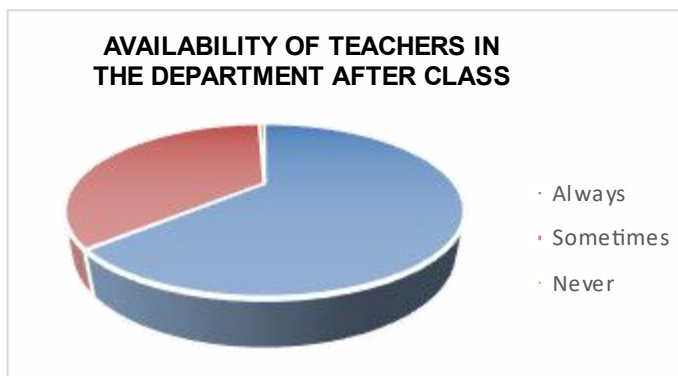

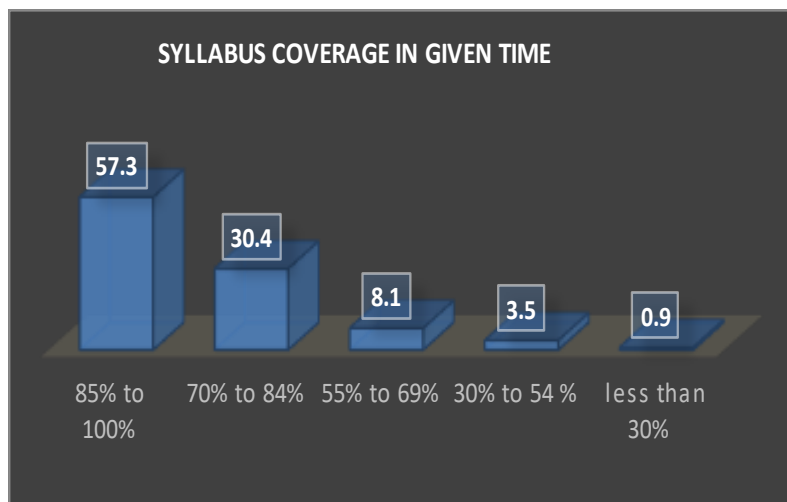

Student feedbacks are an important tool for measuring the effectiveness of education and identifying areas for improvement. By gathering feedback from students about their experiences in the classroom, the College can gain valuable insights into what is working well and what needs to be changed. The Institution regularly takes feedback from the students regarding teaching-learning experience and College Infrastructure. This feedback helps the College address shortcomings in its work and make informed decisions about curriculum development, teaching methods, and resource allocation.

By giving students a voice and actively seeking their input, educators can demonstrate that they are committed to creating a positive learning environment. This can increase student engagement and motivation, leading to improved academic performance and greater student success.

The questionnaire was divided into three heads- teaching-learning facilities (Educational feedback), Administrative Infrastructure and Support and Extracurricular activities.

After getting the feedback from the students, it was concluded that the College needs to act in the following categories:

2. Encouragement to the students to go to the library and make the library more accessible to the students.
3. Maintain hygiene in the washrooms of the College.
4. Create more Awareness among students regarding the Grievance Redressal Committee.
5. The College Placement Cell needs to be more active and help students in their career advancement.
